

I AM NCR ALOHA ONLINE ORDERING

Offer new ways to order and connect

NCR Aloha Online Ordering helps drive incremental sales to your business by making it easy and convenient for your customers to do business with you.

Drive revenue through a new channel

Opening up a new ordering stream will attract additional guests and drive revenue to your restaurant. Typically, customers who order on their smartphones spend an average of 17% more per ticket, so NCR Online Ordering can help boost sales.

Make mobile ordering effortless

NCR Aloha Online Ordering empowers your customers to place an order when they are thinking about your brand. The convenience of placing an order from any device, at any time keeps customers engaged and builds a stronger relationship with them.

Localize menus within brand guidelines

With the NCR Aloha Online Ordering platform you can customize menu ordering content at specific stores and create a consistent look that best represents your brand.

Aloha

Why NCR?

NCR Corporation (NYSE: NCR) is the global leader in consumer transaction technologies, turning everyday interactions with businesses into exceptional experiences. With its software, hardware, and portfolio of services, NCR enables more than 550 million transactions daily across retail, financial, travel, hospitality, telecom and technology, and small business. NCR solutions run the everyday transactions that make your life easier.

NCR is headquartered in Duluth, Georgia with over 30,000 employees and does business in 180 countries. NCR is a trademark of NCR Corporation in the United States and other countries. The company encourages investors to visit its web site which is updated regularly with financial and other important information about NCR.

Integrate with your existing point-of-sale system

Since NCR Aloha Online Ordering integrates directly with your store's POS system, customer transactions are fast and accurate. Customers can see location-specific menus with true prices and taxes and pay online, streamlining order entry and completion.

Maintain operational accuracy and efficiency

Increase kitchen efficiency and accurate order fulfillment while decreasing staff labor and data input errors with the transition of ordering to a single, integrated system. Managers can monitor in-store and web orders simultaneously to deliver a superior customer experience that extends beyond the restaurant.

Gain customer intelligence to improve marketing decisions

As customers voluntarily input detailed personal data into the online ordering solution, you are empowered with valuable information. Detailed analytics and reporting tools enable you to optimize marketing and operational decisions tailored to your customers.

Secure customer profile data and payment information

Customers can securely enter personal profile data and payment information as part of the online order and store it for later use, speeding up the transaction and ensuring better convenience for their next order.

Install remotely for turn-key operation

NCR Aloha Online Ordering can be rolled out remotely to individual or multiple locations. No site visits are necessary with absolutely no need to interrupt your daily operations.
